Dear Sir:

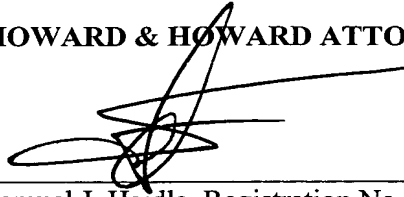

On May 26, 2005, Applicant's Representative, Sam Haidle, conducted a personal interview with Examiner Thomas Williams.

Independent claims 1 and 20, as well as Japanese Publication No. 2-309025 and U.S. Patent No. 6,502,883, were specifically discussed. In particular, Applicant discussed the structural differences between these independent claims and this prior art. Applicant also discussed the possibility of preparing a Declaration from the inventor of the subject application to discuss the configuration and operation of this prior art. These discussions related to the general thrust of the principal issues presented to the Examiner. No agreement was reached as to the allowability of any of the claims.

Filed concurrently herewith is an Amendment and a Declaration under 37 CFR 1.132. It is respectfully submitted that the Application, as amended, is presented in condition for allowance, which allowance is respectfully solicited.

Respectfully submitted,
